

MassBioEd

Career Exploration Week

April 12th - 16th, 2021

Career Exploration Week is a series of one-hour online events over the course of one week, each event showcasing a life sciences company or academic institution. Students will get a chance to see the innovations that drive the industry and learn first-hand from professionals at each company about their college and career journey and what brought them to biotechnology. Students will also experience a virtual lab tour to see where scientists develop life-saving treatments.

Goals:

- Inspire students to choose secondary and college educational experiences that encourage a focus in life sciences.
- Showcase the innovative and important work of our life sciences companies and academic institutions.
- Highlight the vast variety of exciting career opportunities in the Massachusetts Life Sciences Industry and the paths (both conventional and not) taken by professionals.

General Sample Agenda

9:00 - 9:05 am	Welcome Note (MassBioEd and Company)
