June 21, 2019

Dear STEM Academy Families:

The STEM Academy is a wonderful place dedicated to success for all students. As you know, the staff of the STEM Academy is incredible, setting high expectations for all children socially and academically. Your children are truly lucky to have such top-notch educators dedicated to building STEM content and skills.

I am writing to you today with mixed emotions. I have accepted a new principal position at the Washington Elementary School in Lowell, which officially starts on July 1, 2019. Our school has continually grown in size and grades, and I do not hold the proper Educator Certification to remain as principal of the STEM Academy. I also desire a change of assignment and want to focus again working at the Elementary School level.

As principal of the STEM Academy for the past 5 years, our school staff worked hard creating and maintaining solid bonds with students, parents and the community. We have started to create a strong Middle School and developed community STEM partners with the Lowell Kinetic Sculpture Race, Kronos, Mill City Grows, and STARBASE at Hanscom Field. We have fun monthly activities for all kids including Ice Cream Socials, Winter Reading Night, Bingo for Books and other fun events. Most importantly, everyone in Lowell knows the STEM Academy is filled with our little SHARKS. By collaborating together we've developed successful, confident students ready for the academic and social rigors of life.

Even with a change in leadership, the STEM Academy will continue to be successful due to parent cooperation, student motivation, and overall staff dedication. The open STEM Academy principal position will be posted immediately. The selection committee will be formed in July and will be comprised of school, family, and community members. If you have any questions or concerns, please contact me at jmccrevan@lowell.k12.ma.us. Again, thank you for having me be part of your family for the past 5 years. It has been a privilege being the school leader for our STEM community.

Sincerely,

Jason McCrevan
Principal – STEM Academy
