

## Flu Shot Clinic for Lowell Public Schools Students

The Commonwealth of Massachusetts has mandated that **all children attending school in grades PreK-12 must receive a current flu vaccination by December 31, 2020**. This includes students enrolled in both in-person and remote learning. Proof of a flu vaccine must be given to the school nurse by the 12/31/20 deadline or a child will be excluded from school.

In support of our families, Lowell Public Schools partnered with CVS Pharmacy to provide a series of flu shot clinics at our schools. The clinics are for children ages 3 and older (family members and school staff are also welcome!). You can go to any clinic – it doesn't have to be the one at your school.

Advanced registration is required and space is limited. For more information and for registration links for each clinic, visit: [www.lowell.k12.ma.us/flushotclinic](http://www.lowell.k12.ma.us/flushotclinic).

Please remember to follow social distancing protocols and to wear a mask or face covering. And please remember to bring your insurance card.
