

2021/2022 Welcome to 6th grade math with Mrs. Early

We will be using the Eureka Math program with workbooks and online supports

Topics Covered:

1. Module 1--Ratios and Unit Rates
2. Module 2--Arithmetic Operations, Including Division of Fractions
3. Module 3--Rational Numbers
4. Module 4--Expressions and Equations
5. Module 5--Area, Surface Area and Volume
6. Module 6--Statistics

Our grading system:

20% participation and daily assignments

Students will complete daily work in the classroom and on google classroom. They are expected to take notes and ask questions during modeling and then be prepared to work independently with teacher support.

20% Exit tickets

Students will complete exit tickets at the end of most classes to complete a quick check in for understanding. They are graded on effort and use of class strategies.

30% Quizzes and tests

Quizzes will be assigned every week to 10 days to check in on student's use of strategies and class examples. Tests are scheduled at the end of each of our math modules.

20% Skills/Intervention Class:

This class supports CORE math class and is graded on class work and participation.

10% Homework:

Homework will be assigned every night Monday-Thursday in CORE math class, with no homework given out on Fridays for the weekend. There may be some weeks where the full weekly assignment is handed out on Monday but is not due until Friday. Homework is graded on best effort and reasonable answers using classroom strategies and must be handed in **on time**. Students must attempt all

problems and show all work for credit. Students are responsible for writing all homework assignments in the agenda book each day along with the due date. Unless there has been an excused absence, it is not reasonable for students to ask to make up multiple missing homework assignments or right before grading as it needs to be a reflection of current work.

Behavioral Expectations:

Classroom & School Expectations
for our PBIS PAWSITIVE school:

- * *Be Safe*
- * *Be Respectful*
- * *Be Responsible*

Students are expected to **show respect** towards one another, materials, and ALL adults at the Butler.

Students are expected to **make good choices** by following the PBIS matrix at all times.

Class Dojo and Parent Communication:

Materials:

Each day you **must** arrive to class with the following supplies:

- Your student chromebook and charger
- Your math binder/notebook
- Eureka math book/worksheets
- Your agenda book
- Several pencils and an eraser
- Best attitude for LEARNING

To have this syllabus translated, please upload the electronic copy:

<http://translate.google.com>

Classroom 116 will be using Class Dojo to earn positive PAW points as well as communication through REMIND, emails and phone calls home.

Parents are also welcome to send in notes through the agenda book.
