To: Liam Skinner, Superintendent of Schools
From: Derek Pinto, Assistant Superintendent of Finance
Date: July 16, 2025
Subject: Quarterly Budget Update, 3rd Quarter, January 1-March 31, 2025

Purpose: To provide a snapshot of the FY25 Q3 spending and share essential budget information in a clear and concise format.

A financial overview of the School Department's FY25 Third Quarter Financial Report (FY25 Q3, or Q3) will be presented to the School Committee on July 16, 2025, spanning the first three quarters of the School Department's fiscal year: January 1 to March 31, 2025. This report would typically fall in the May timeframe, but FY26 Budget discussions took precedence at that time.

This FY25 Q3 Financial Report is a summary of the Operating Budget. It is organized into two sections:

1. Non-Salary Expenses
2. Payroll (Salary) Expenses

The budget continues to progress as expected, with ongoing evaluations to ensure spending reflects district priorities and operational needs.

Regarding **Non-Salary** expenses: Purchases and transfers are being monitored closely, and we are investigating whether some expenses can be reallocated to grant funds.

Regarding **Payroll** expenses: We are reviewing staff assignments to ensure alignment with funding sources, and to ensure that grant-supported roles are aligned with grant periods.

Variable costs can place significant financial pressure on the budget. Costs that we are monitoring include but are not limited to the following: unpaid bills in the current or prior years, substitute staffing, overtime, sick leave buy back, emergency instructional technology and software needs, out-of-district (OOD) tuition, special education\homeless\other transportation needs.

The **next steps** for the School Finance Department include:

- Monitor spending trends and investigate potential budget transfers.
- Identify cost-saving measures while maintaining essential services.
- Reallocate funds where appropriate to reflect accurate spending and maximize grant opportunities.

Subsequent quarterly reports are scheduled for completion as follows:

- Quarter 4: financial status through June 30, 2025, to be presented in September 2025

The updates aim to provide transparency while highlighting key areas of focus or challenges. As always, ongoing adjustments are part of maintaining a balanced and responsible budget. It is important to recognize that budget maintenance is an ongoing process involving daily adjustments, reallocations, and transfers to maintain accuracy.
