Summer Series 7/18/23

Summer School

Last week we completed our 2nd week of the summer program. The theme for last week was "*the ocean*". This week's theme is "*the farm*". Last week, as part of the ocean theme, students read stories such as "There Was an Old Mermaid that Swallowed A Shark", "The Pout Pout Fish", and "There Was an Old Lady Who Swallowed A Shell". Students also participated in virtual field trips to a kelp forest and to the beach. On Friday we had a special treat....the district treated everyone to a refreshing ice slushy treat. The program was visited by the **Kona Ice Truck**. Lots of smiling faces as they enjoyed their ice treats!

***Just a reminder, the LAST day of the summer program is **Tuesday, August 1st**.

Parent Resources

Project Lifesaver

Lowell PD is piloting a program known as "Project Lifesaver". Students/children are provided a tracking device to wear on their wrists. This assists the police department in tracking your child if they go missing. The device is provided by the police department free of charge to the families that wish to participate in this program. We currently have 2 students enrolled in the program. Please check your emails from the Adie. I have attached information about the program as well as the application/contract to the email. Once you complete the application please send it to me at school and I will submit it to our contact at the Police Department.

If you have any questions regarding the Safe watch or Project Lifesaver programs please reach out. Our thoughts and prayers go out to Anna and her family during this difficult time.

Safe Watch

Lowell Police Department's "Safe watch" program: I would like all families to consider registering their children for this program. It only takes a second for a child to go missing. By registering your child with the Safe Watch program the police department is able to gather pertinent and recent information on the child should they go missing. This will allow them the opportunity to be immediately prepared to begin an informed search, deploying resources constructively with the best chance of returning the individual as quickly as possible. Family members are encouraged to make use of this program by filling out the form below and update it with the LPD as necessary. Here is the link for the online registration form:

Sensory Friendly – Tewksbury & Chelmsford

Walmart will offer sensory-friendly hours each Saturday from 8 a.m. to 10 a.m. now through the end of August in areas where school starts before Labor Day. Also, in regions where school starts after that holiday, sensory-friendly hours will be held on Saturdays from July 22 through Sept. 9.

During the events, stores will lower their overhead lights, turn off radios and replace moving pictures with static ones on televisions in an effort to “create a quieter and less stimulating shopping trip,” Walmart said.
