1. QiP Process:

- **Year Two of a Three Year Focus:** We have our years two and three already mapped out, as we did this last year. We will touch base if major changes are needed, but this has also been reviewed by our ILT and building leadership team.
- **Priority Areas:** Our priority areas will remain the same, and the direction from the district was to maintain the focus, unless there is a need to make a staffing change. We did much work in shaping the current direction of STEM, that involves the above steps, so this is our time to maintain continued continuity.

2. Budget Process (Dr. Passeri)

- **Budget Data Review:** We reviewed the funding that was deemed “level services” instead of “level funded” by the district, as this does offer protection from contractual raises that drive up the cost of positions. We have the necessary dollars to fund our exact budget from this past school year.
- **Recommended Budget:** The budget was recommended to maintain our current positions and all members were in support of this.

3. New Business: No new business.
