**School Site Council Agenda**  
**May 1, 2025**  
**5:20 PM**

**In Attendance:** G. Passeri, H. Condo, V. Nguyen, K. Crotty, F. Lopes, A. Al-Rekabi, J. Nucefora, P. Uy, S. Schiffer

**1. April Acceleration Academy:** Our program was well-attended and coordinated by one of our APs. Just like February, the district provided funding to certain schools to design/implement school-specific interventions.

**2. QIP: A Third Data Checkpoint:** We reviewed the latest data and qualitative measures continue to point to progress within our academic goals, while quantitative measures (Ex: Survey Data from students/staff) points to progress. Except for only a few data-points within our latest OA survey, we were in growth to good areas. The district continues to try and improve how the data is viewed, striving to make this easier and more actionable.

**3. Open Positions:** None currently, and our hiring for next school year continues to be progressing.

**4. Budgeted Building Improvements Update:** After a two-year wait, we were approved for the facilities work that we had agreed to put in our local budget for this last school year. We are getting the hallways and cafeteria painted the same color as our lobby and modular wing. Additionally, we were able to put forward another project that staff had been asking for with our office carpeting being replaced. The district is also contracted out a fix for our heating system, since the building has long been too hot each winter, and is exploring the possibility of extra parking being added on the other side of the gym. We do have a temporary plan to add parking in the courtyard.

**5. New Business:** We are going to be making a survey to better inform our tier 1 SEL interventions by partnering with UML. This has already been contracted and will continue some of our prior work.

## **6. Adjourn**
