

Our Core Values

1. Relationships:

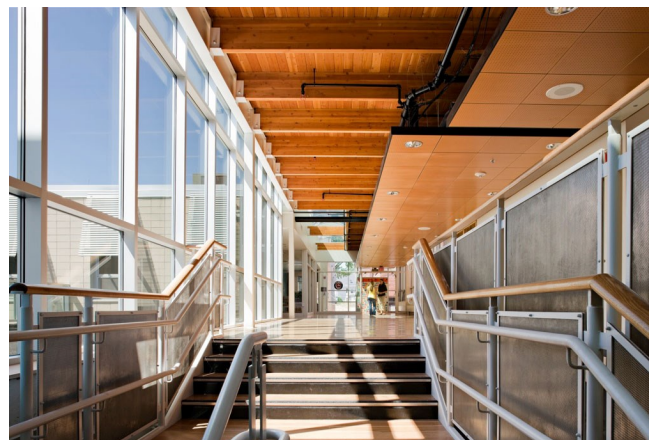

Establish and maintain relationships based on respect and trust. Student to teacher and staff to staff relationships will create a positive school culture and increase learning.

2. Powerful Learning Environment:

Create, establish, and facilitate effective learning throughout the entire school. Having high expectations for all students and support them to reach their full potential in all aspects of achievement - especially academics.

3. Teacher Empowerment:

Allow teachers to make informed decisions. The power of a school comes from the effectiveness of a teacher.

School's Greatest Assets

- **The people involved with the school, faculty, students, parents and staffs are the school's greatest asset. They provide the cooperation and energy essential for supporting high-level student learning.**
- **Unified focus on helping all students develop their reading, writing and mathematics abilities.**
- **Regularly scheduled student field trips for students with parental participation as chaperones.**
- **Community of learners committed to personal best.**

School Accomplishments & Priorities

- High expectations regarding achievement of all students
- Small group reading instruction
- Standards based curriculum and instruction
- Partnerships with local community organization
