

School Mission

At the Reilly School we promote lasting relationships amongst teachers, students, families and the community.

We promote a school culture focused on collaborative instructional practices, targeted, student-directed learning and a professional learning community ("PLC") fostering teacher leaders and functional grade level and vertical teams.

We communicate the expectation that all children can learn and achieve at high levels when given the proper time and quality instruction.

The Reilly School Pledge:

As a member of the Reilly School I promise to Be Responsible, Be Respectful, Be Safe, and Be Kind!
