II. QIP - modified school vision

The John J. Shaughnessy Elementary School is a learning community of students, staff, and families with a focus on student academic and personal success. We focus on essential academic standards while challenging each student to reach their highest level of personal development. Our school is an atmosphere which encourages positive student strengths, self-advocacy and communication. We are actively involved in the learning process and practice the intrinsic motivation to succeed. Through the effort and commitment of our team, John J. Shaughnessy School students will be life-long learners and responsible citizens.

III QIP

Intentional Practices for Improving Instruction – Engaged Learning

School leadership has identified a clear instructional focus and shared expectations for instructional best practices that address clearly identified, student-specific instructional needs. Administrative observations lead to constructive, teacher-specific feedback, supports, and professional development.

Provide an engaging, rigorous, and relevant program to meet the academic, social, and emotional needs of each student.

- needs of major stakeholders in partnership with UML
- Increasing Student Accountable Talk across all academic domains
- UOS Grade 1 Phonics Initiative
- Implementation of K Phonemic Awareness program
- Implementation of ST Math pilot - We will be implementing a trial of this program to help us qualify for full implementation. This will benefit students by offering visuals, which should improve outcomes for our students.
