

Hello, May!

SCHOOL GARDEN NEWSLETTER

Did you know that some common weeds in your school garden are edible?

Yes, you read correctly! Some weeds are not only edible but beneficial for your overall health. Here are a few examples attached below.

Mill City Grow's Plant Sale is coming soon!

We have over 1,000 seedlings ready for a forever home with you! Some varieties that will be included are peppers, eggplants, tomatoes, cucumbers, flowers, herbs and more! That being said, it's a great time to start visualizing how you want your garden to look like this summer. As always, Mill City Grow's is here to provide any support needed!

We will send out a follow up email with [this google form/ distribution plan](#) once available

SHOUT OUT to Mrs.Medes from the Stoklosa!

Mrs.Medes took an innovative approach on gardening! Here she used two pallets, one as the frame and the second as support by using it's pieces to seal the bottom of the three planters. To secure the soil, she used landscape fabric and lined it inside the planters to prevent weeds and hold the soil. After this, she added soil and planted different varieties of herbs and peas!
