

Marshmallow Challenge

The Marshmallow Challenge works well with middle and high school students. The materials you will need include: 20 sticks of spaghetti, one yard of tape, one yard of string, and one marshmallow. Break your students into groups of four or five and have them build the tallest structure that can support a marshmallow on top.

Materials:

1. 20 sticks of spaghetti
2. one yard of tape
3. one yard of string
4. one marshmallow
