-
- **ART-**
- A resource from Mrs. Pintzopolous “Art Hub for Kids.” Below is a link to their YouTube channel. When it’s over you’ll see
- the vast amount of “how to draw” videos available so kids can pick what interests them.

This Weeks Specials Information!

MUSIC

It's spring! Open a window or take a listening walk. What does spring sound like? Can you hear birds singing? Every bird has a special call. Draw a bird and describe the sound of its song. Try to whistle or sing its song.

ART

Go outside or observe through your window. Can you spot ONE sign of spring that isn't moving? Maybe it's a budding tree, a plant poking through the ground, a puddle on the sidewalk, or something else. Use your artist eyes and draw what you see using ONLY lines and dots to add details and shading. Extra challenge: Try another drawing of the same thing using the hand you don't usually use to write or draw with.

CONTENT LITERACY:

Spring is here. Take a walk outside and observe signs of spring. Write what you see, hear, and smell. Find a tree and draw what it looks like right now. You can draw the same tree again next week and compare your drawings.

www.brainpopjr.com

Spring video is available on www.brainpopjr.com just type spring into the search bar (Free family access)

PHYSICAL EDUCATION

Make your own Five Minute Fitness Plan! On a piece of paper, decide on five exercises. Here are some you can choose from: jumping jacks, plank, push ups, running in place, invisible jump rope squats or sit-ups. Choose five of these or add your own. Then, set a five minute timer. For each minute of the timer, do one of the exercises. Repeat this as many times as you want! Don't forget to follow up with some water and a healthy snack.
